

# Make A Bobble Head Bunny

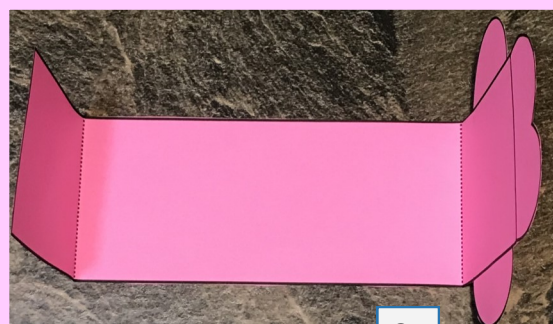

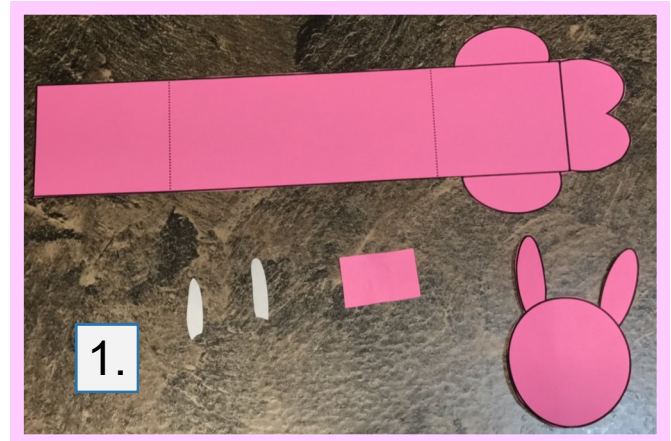

# Bobble Head Bunny Directions

**Materials:** bunny patterns, white paper, pink and white pom pom, wiggle eyes, crayon/colored pencils, glue, and scissors.

## Directions:

1. Print out bunny template. Use color paper or print on white and color the pattern.
2. Cut out your bunny pattern. Save a scrap of paper to make the bobble head neck. Use white paper to cut out for inner ear.
3. Now, give your bunny a face! Don't forget to add the inner ears, wiggle eyes, and pink pom pom nose. (can draw eyes and nose)
4. Build your bunny body by folding on the dotted lines. Use the picture as a guide when gluing. Place the glue on the square section surrounded by the feet. Fold the other end over and onto the glue. You may have to hold the bunny together as the glue dries.

section surrounded by the feet. Fold the other end over and onto the glue. You may have to hold the bunny together as the glue dries.

4.

5. Use the piece of scrap paper and fold it in opposite directions to create a spring for the neck. You should fold it twice like the image.

6. Keep one fold up as you glue the paper to the bunny head. Then glue the other side of

the paper to the body.

5.

7. Add your white pom pom tail and

you

are done! Don't forget to give you bunny a name!

6.
