

# Make A Pipe Cleaner Bald Eagle

# Pipe Cleaner Bald Eagle Directions

**Materials:** 2 brown pipe cleaners, yellow pipe cleaner cut to 2 inches, 2 small googly eyes, white pom pom, Elmer's glue

## Directions:

1. Start by wrapping one of the brown pipe cleaners around your finger.

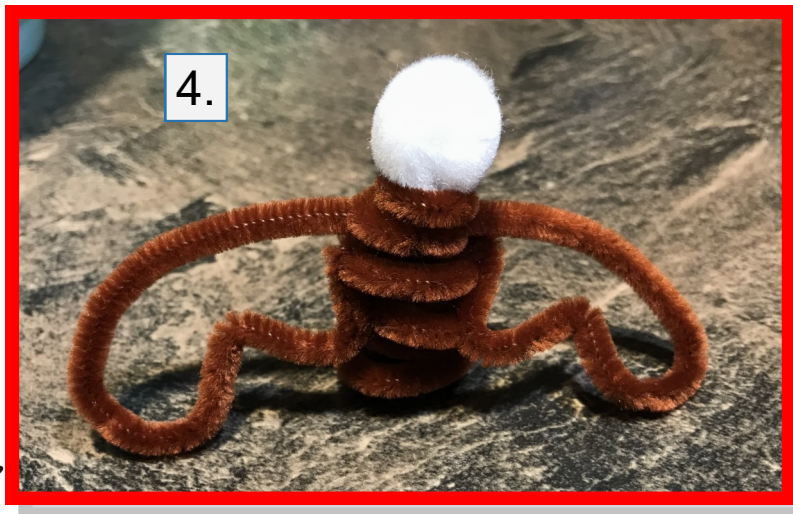

2. Bend the other brown pipe cleaner into the shape of wings.

\*\*\*Younger children may need more assistance with this part.

3. Attach the wings by putting the two ends of the wings in the body. You can bend the wing pipe cleaners to make the wings stay or you can use glue.

4. Put glue on top of the body to attach the head. Put the pom pom on the glue. You may need to hold the head on for a few seconds to make sure it stays in place.

5. Fold the yellow pipe cleaner in half for the beak. Attach the eyes and beak to the head with glue.
