

Make a Popsicle Stick Rainbow

Popsicle Stick Rainbow Directions

Materials: Popsicle sticks, cotton balls, construction paper, markers, glue, & scissors

Directions:

1. Start by coloring your popsicle sticks. Remember, ROYGBIV. To make the indigo color, first color the popsicle stick blue then go over it with grey.

2. Cut out a cloud shape with your square piece of paper.

3. Once your popsicle sticks are colored, arrange them in a V shape (still in order of the rainbow). Put glue on the top portion of the V and place your cloud shape on top.

4. Take both cotton balls and pull them apart to make the fluff of the cloud. Try to keep each cotton ball in one piece while also making them big enough to cover the paper.

5. Glue the cotton to the paper and you are all done!

PLEASE LEAVE DIRECTIONS ON TABLE ~ THANKS, WH NATURE CENTER
