

Make a Egg Carton Goldfish

Egg Carton Goldfish Directions

Materials: Egg carton, 2 white pom poms, 2 black pom poms, 2 small tissue paper rectangles, 1 large tissue paper rectangle, pink pipe cleaner

Directions:

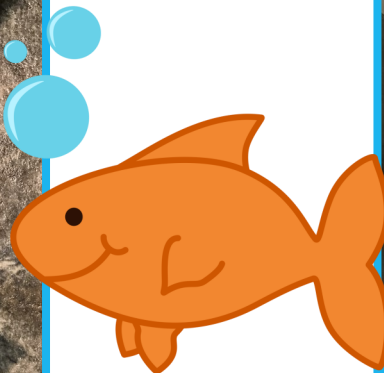

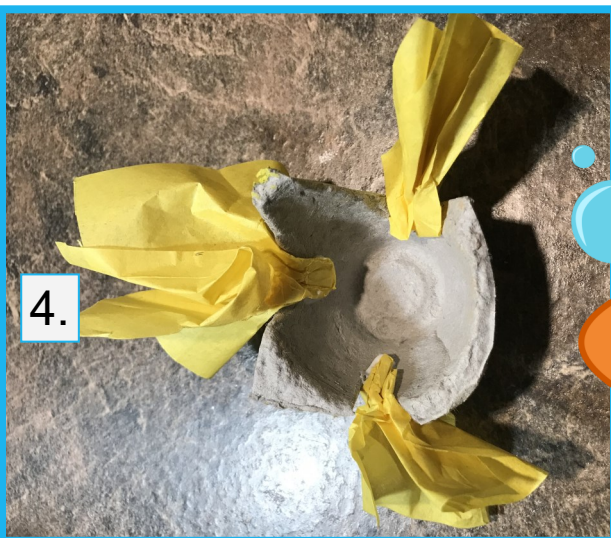

1. Start by crinkling the tissue paper. Pinch the center of the piece and use your other hand to pull the paper outwards to resemble a fin.

2. Repeat step 1 for all

the tissue paper pieces.

3. Add a small drop of glue to the back opening on the carton. This is where you will place the tail fin which is the largest piece of tissue paper.

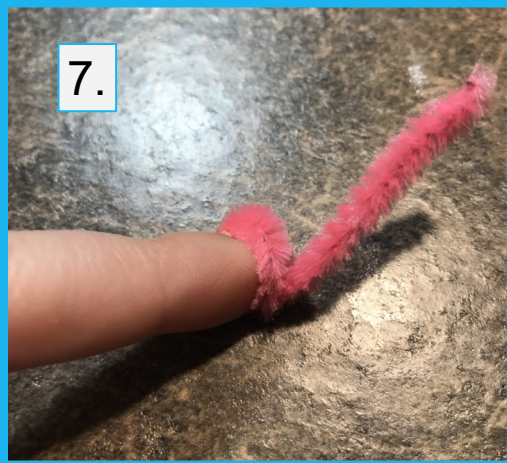

4. Add a drop of glue to the other openings to attach the small fins.

5. Carefully flip your goldfish over. Glue the white pom poms to the front.

6. Set your fish aside.

7. Wrap the pipe cleaner around your finger to create a mouth.

8. Glue the mouth to the goldfish then glue the black pom poms to the eyes.

9. Your goldfish is complete. Don't forget to give it a name!
