

Make A Paper Bag Teepee

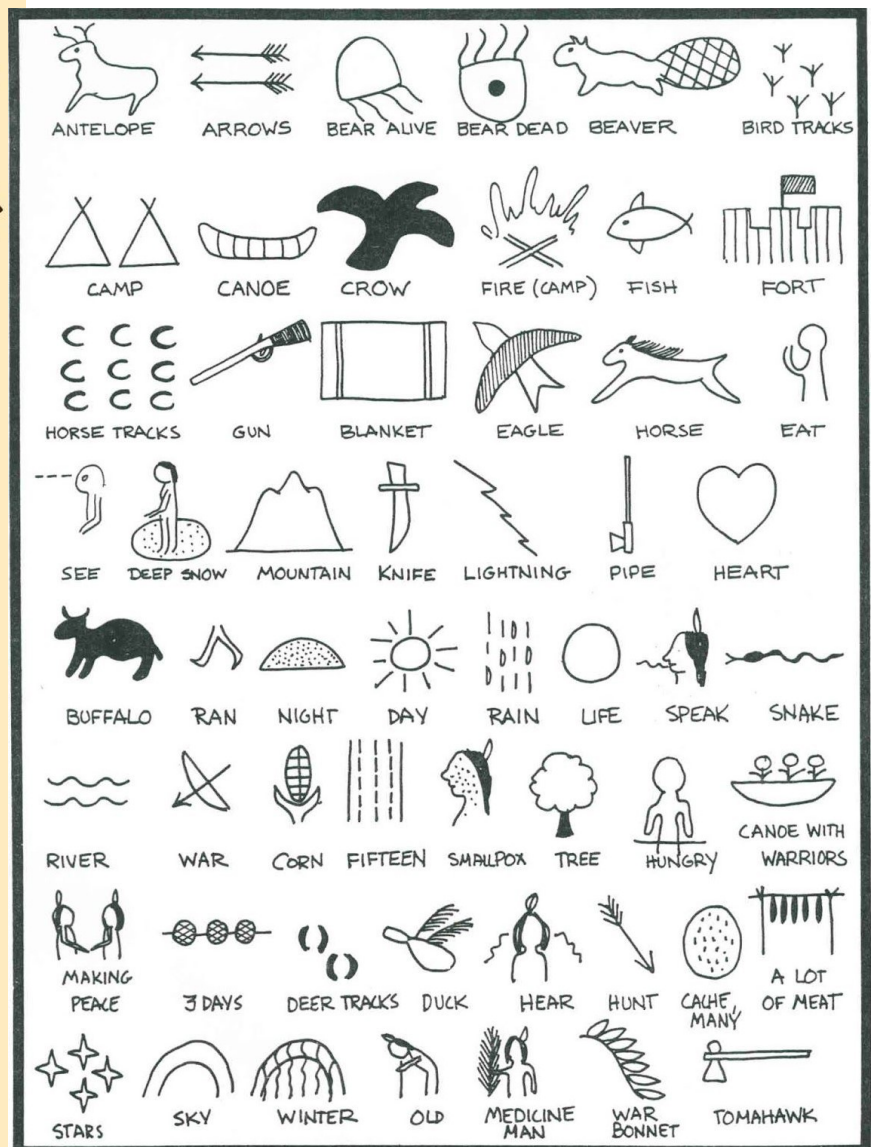

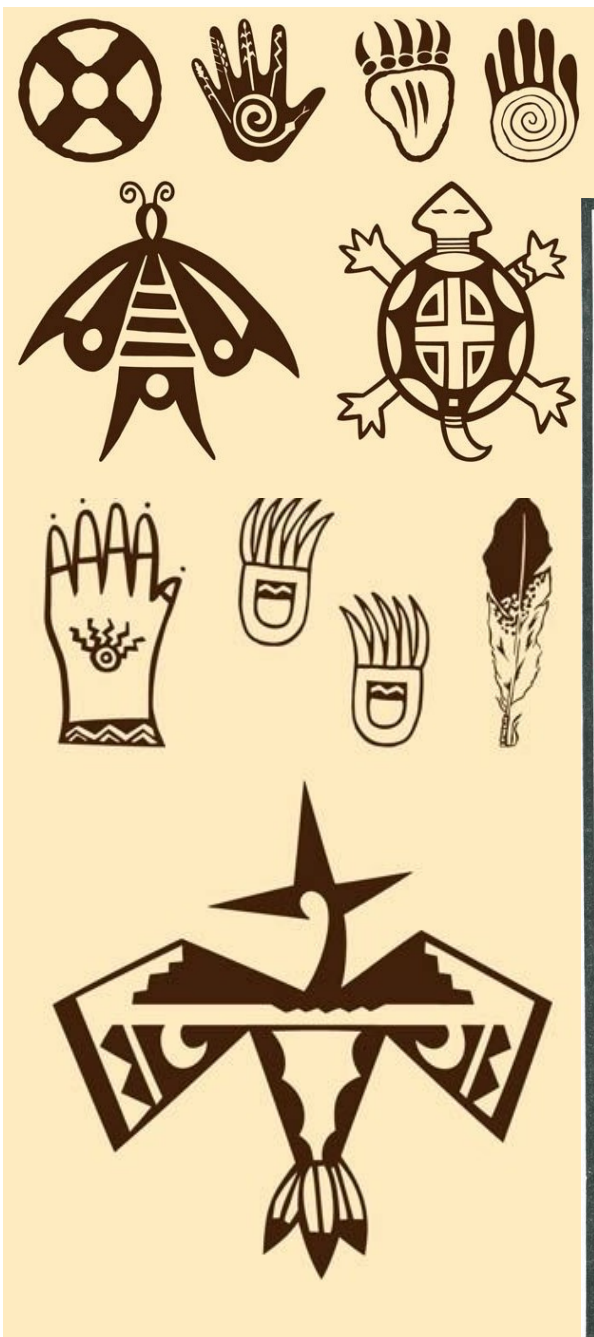

Paper Bag TePee Directions

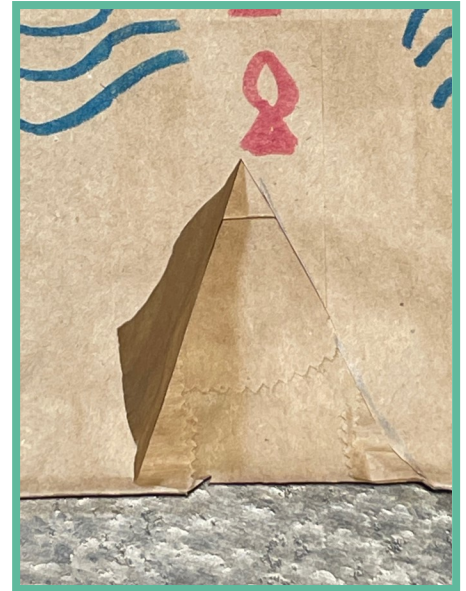

Materials: paper bag, pipe cleaner, markers, and scissors

Directions:

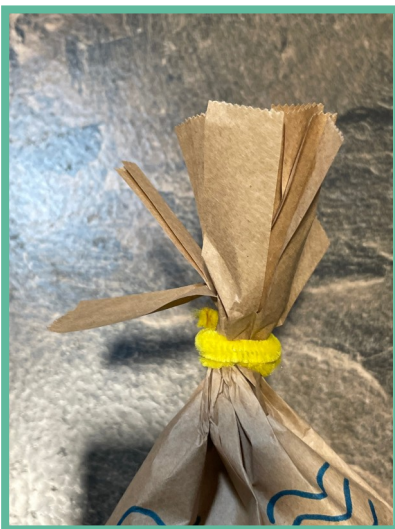

- Using markers, draw native-style designs on your paper bag. Make sure to color all sides. Try out some of designs shown on this page.

2. At bottom of bag, near seam, cut out a triangle door. Fold open.

3. At the top of the bag, cut strips that are 2-3 inches from the top. This will be the logs that hold the tepee up.

4. Open the bag up. Gather top of bag together and tie off using the pipe cleaner by wrapping around at the bottom of the cuts. Spread out the pieces.

5. You're done!! Take your tepee home to decorate your table for the autumn season!
