

Make a Terrific Tulip Garden

Terrific Tulip Garden Directions

Materials: 3-sets of tulip flowers, green template for stems and leaves, blue background page, glue, & scissors

Directions:

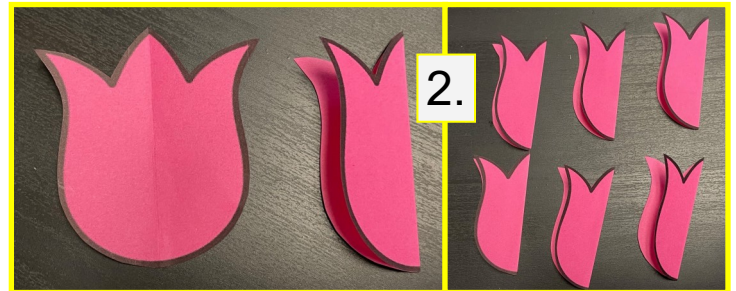

1. Cut out tulip shapes from 3 colored paper pieces.

1.

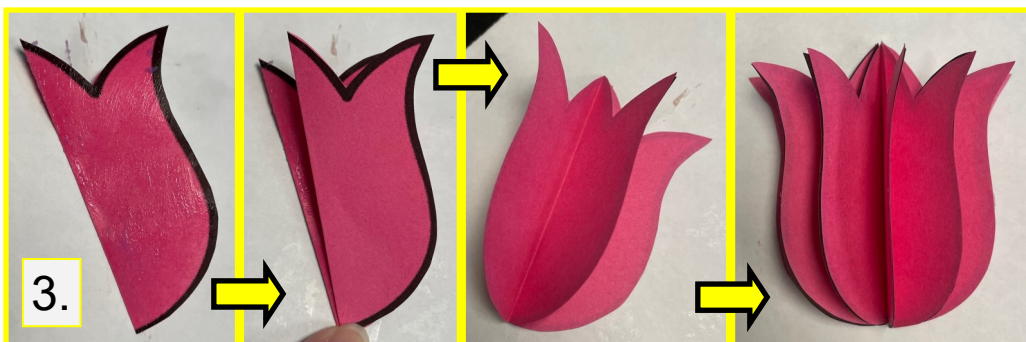

2. Fold each tulip shape in half, lengthwise. If you don't want black outline to show, keep it on the outside of fold.

2.

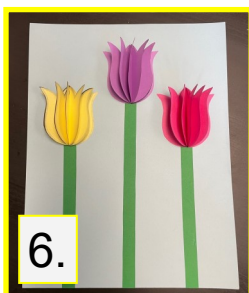

3. Take one of the folded shapes and place glue on entire side. Place another folded shape

right on top. Repeat by placing glue on top of that shape and placing another on top. Continue repeating until all six shapes are glued to each other. Make sure to open up each set of 'petals' as they may stick to each other with excess glue.

4. Repeat step 3 for the other two tulip colors and set aside.

6.

5. Cut out green leaves and stems.

6. Glue the stems onto the blue background paper. Glue the tulips to the top of the stems.

7. Glue the leaves onto the stems.

8. Hang your garden of tulips up at how to welcome in Spring!

7.
