

Make A Water Lily

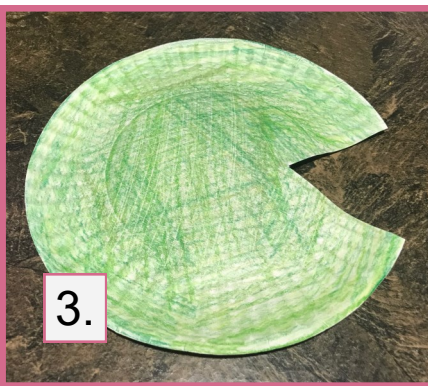

Water Lily Directions

Materials: Paper plate, fake flowers, colored pencils/crayons, pen or pencil, and scissors

Directions:

1. Draw a triangle on your plate.
2. Color your paper plate to look like a lily pad. Don't color inside the triangle you made.

3. Cut the triangle out to make lily pad.
*Optional: Cut off the outer edge of plate to make slightly smaller circle.

4. Use a pen or pencil to poke a hole on the side of the plate.

5. Remove the rubber green piece on the back of the flower and set aside.

6. Put the flower in the hole you created.

7. Put the green piece back on your flower to hold it onto the plate.

8. Your lily pad is complete!
